Cuda Knife and Hook sharpener

New in 2017, Cuda Fishing Tools is excited to debut the brand's new diamond sharpeners at ICAST 2017. The three sharpener series is powered by DMT, a leader in diamond sharpening technology. With rust-proof construction that is made in the USA, these tools are a necessity on any boat. The 6-inch Marine Bench Stone Diamond Sharpener features a fine grit and non-marking rubber feet. At 4.25," the Marine Knife & Hook Sharpener includes an integrated hook sharpener, folding handles and double sided stones with fine and extra fine grits. The 10" Marine Cutting Board Diamond Sharpener easily installs on standard marine cutting boards and features a fine grit diamond stone. MSRP: \$45.99

Cuda Gloves

Cuda is unveiling a new glove line at ICAST 2017. The new line of gloves are available in three different styles — bait, wire wrap and offshore. Featuring puncture-resistant, multi-layer Kevlar construction, the new gloves include pull straps for easy removal. The new line also features convenient touchscreen thumb and index finger control as well as reflective indicators for ultra-visibility on the water. Each designed for specific tasks, the bait glove includes special enhancements for bait cutting, while the wire wrap and offshore gloves feature unique reinforcements and additional padding to tackle any task at hand. The gloves are available in medium, large and extra-large sizes. MSRP: \$57.49-\$63.24
